EXPERIENCE

Senior front-end engineer

[Gainfully \(May 2022 - June 2024\)](#)

Part of a small agile team developing a client based management system. Initially built on Vue2, Vuex and Vuetify, we've now transitioned to Vue3, Pinia and Quasar and all the edge technologies that come with it. We've cleaned the code, improved the architecture and implemented standards across the dev team.

Senior front-end engineer

[UpWork \(Mar 2020 - 2022\)](#)

Member from the start of the small team that initially built Catalog based on Vue.js 2 which became a huge part of UpWork. I lead subteams for building features, I've engaged in feature development, creating and design, to actually coding it, QAing it, deploying to production and finally help evaluating the end product.

Lead front-end

[Buspaket \(Sep 2017 - Jul 2019\)](#)

It was an almost 2 years Vue.js project as an internal app for a german travel agency. I did the front-end architecture from start to finish and worked alongside a great team implementing a complex user, travel and client management application. As with every project, I've learned quite a few new things.

Front-end

[on a few notable startups \(2015 - 2017\)](#)

SpaceAngels.com (2017) - capital for early-stage space ventures

Siminn.is (2016 - 2017) - a telecom company in Iceland

Nuntacudragoste.ro (2016) - personal project: weeding events

Mokus.io (2015 - 2016) - digital agency

Qordoba.com (2015) - an AI company offering SaaS

Nabbesh.com (2012 - 2013) - a skill marketplace

Asigcasa.ro (2011) - personal project: Insurance sales website

EDUCATION

Bachelor of Computer Science

[June 2013, "Politehnica" University of Timișoara, Romania](#)
